1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. 3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nemoto et al. US Patent No. 4,642,620, teaches a change over switch to place a secondary image onto a primary image, however, the secondary image does not move to different display locations.

**REASONS FOR ALLOWANCE**

4. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or suggest compressing a sub-screen video signal, producing a switching signal in response to a control signal generated from command signals, switching between a video signal and the compressed sub-screen video signal in response to a timing of said switching signal to change the displayed position of the sub-screen while continuing to increasing the moving speed of the displayed position of the sub-screen when similarity is found in the command signals.
